BACKGROUND

BRAC's onboarding process is designed to ensure organizational, cultural and systematic alignment for new joiners, helping them understand the values, legacy, culture, and practices that define the organization. BRAC Learning Division organizes regular onboarding programmes for head office new joiners. During the onboarding sessions, new employees undergo a comprehensive journey that familiarizes them with BRAC's organizational principles.

Head office staff experience a month-long programme that includes classroom sessions and Online learning through BRAC's digital learning platform. As part of this onboarding journey, BRAC will develop a series of new, specialized learning courses covering the following key thematic areas:

- BRAC Strategy
- BRAC Values
- BRAC Internal Audit

OBJECTIVE

The objective of this assignment is to collaborate with a qualified production agency to design, produce, and deliver high-quality, video and/or animation-based learning modules. These modules will enable new joiners at BRAC to easily grasp the organization’s strategic vision, its values regarding inclusion and equity, and the specific regulatory policies, procedures, and individual responsibilities within the BRAC Internal Audit Department.

SCOPE OF WORK

Each of the 3 modules will be hosted on BRAC's internal digital learning platform, which is accessible exclusively by BRAC staff members. These modules serve as key elements for onboarding new joiners, ensuring successful integration, cultural alignment, and process standardization.

To maximize engagement and maintain learner attention, the hired partner is

expected to propose creative instructional design approaches, such as a fully animation-based approach or a hybrid approach combining animation and human interaction.

Module Details

Module 1: BRAC Strategy (2025 - 2030)

- Objective: To provide new joiners with a clear understanding of the 'bigger picture,' detailing BRAC's next 5-year vision and the strategic direction the organisation will take to achieve it.
- Content Delivery: BRAC will provide the necessary raw content. The hired partner is expected to explore creative approaches to make this high-level strategy easy to digest and understand.
- Structure & Duration: The module must be divided into several logical segments. The total runtime must not exceed 20 minutes.

Module 2: BRAC Values

- Objective: A critical component of the onboarding journey designed to drive cultural alignment, ensuring all staff members understand and embody BRAC's core organisational culture.
- Content Delivery: BRAC will provide the foundational content. The hired partner must develop creative modalities to make these core principles relatable and actionable.
- Structure & Duration: The module must be split into 4 separate segments-one for each core value and its practice parameters. Each segment must feature its own distinct learning objective and approach, and must not exceed 5 minutes per segment (20 minutes total).

Module 3: Internal Audit

- Objective: To educate staff on BRAC's organisational control mechanisms, compliance protocols, and accountability frameworks through rigorous processes.
- Content Delivery: Because this module is highly process-driven, the hired partner must focus heavily on making the technical workflows visually interesting, clear, and easy to comprehend.
- Structure & Duration: The content should be structured logically to demystify audit processes, and the overall module length must not exceed 15 minutes.

SPECIFIC DELIVERABLES

- Scope of Content: Production of three (3) separate video modules, with a runtime of 15 to 20 minutes per module.

- Conceptualisation and Storyboarding: Collaborative development of creative concepts, scripts, and visual storyboards in close coordination with the BRAC team.
- Production Management: End-to-end planning and execution of all logistics relating to content flow, filming schedules, animation design, and overall production workflows.
- Technical Production: Professional video shooting utilising high-quality equipment, custom animation/motion graphics creation, video editing, sound design, and comprehensive post-production.
- Review & Quality Assurance: Systematic incorporation of feedback from BRAC at critical milestones and relevant stages of development.
- Final Delivery: Provision of the finalised, high-definition modules in agreed-upon digital formats optimised for seamless integration into BRAC's internal learning platform.

ROLE AND RESPONSIBILITIES

BRAC will:

- Provide subject matter experts (SMEs) to curate, validate, and deliver the module content
- Facilitate coordination between SMEs and the selected agency
- Review and provide feedback on drafts and final outputs

The Selected Agency will:

- Lead the overall production process from planning to final delivery
- Manage all technical, creative, and logistical aspects of content production
- Ensure high production quality and adherence to agreed timelines
- Coordinate closely with BRAC and SMEs throughout the development process

TIMELINE:
Full completion of the project within 31 December 2026
REPORTING
Fahad Bin Touhid
Manager, Onboarding, Learning and Leadership Development, BRAC
SELECTION CRITERIA

- Technical proposal
  - Conceptualisation, methodology and understanding of the work
  - Reference storyboard as per the scope and deliverables of the work.
  - Similar experience of developing online learning modules, experience of working with BRAC on similar projects will be preferred. .

- Financial proposal: Each module cost to be provided (Including all shooting/animation/sound/light or any relevant work)
